

PRODUCT INFORMATION SHEET

MAINZ Transparent safety glasses uni

Product description

Glasses intended for individual eye protection against mechanical hazards. Compliant with EN 166: 2001.

They also meet EN 170 standard – Ultraviolet filters and EN 172 – sun glare filters for industrial use.

The lenses of glasses are made of transparent profiled polycarbonate, so that they provide side eye protection.

The frame and adjustable temples are made of black nylon, which gives the glasses a fashionable look.

The glasses protect against low energy chipping of solids produced during grinding, drilling, cutting, sawing and crushing. They are perfect for typical works in industry and services, construction, in the workshops, forestry, in technical or municipal works.

The product can be used with corrective glasses. They are not suitable for use during welding.

Characteristics

- material: polycarbonate – lens / nylon – frame / polyvinyl chloride – bridge;
- optical class: 1 (+ 0,06 dioptries – designed for continuous wear);
- filter type: 2C – UV filter with correct colour recognition;
- filter UV with correct colour recognition – 2C;
- mechanical resistance: F (low impact Energy 45 m/s);
- lens colour (degree of blackout) 1.2 – transparent;
- application: 5 (fine dust particles and gases 5µm);
- standards: EN 166:2001, EN 170, EN 172;
- scratch-resistant;
- adjustable temples (from 5 to 15 mm) which adapt to the facial profiles;
- longitudinal temples;
- soft PVC bridge;
- rimless glasses;
- light and durable design;
- fashionable design.
