

WURNITZ elastic protective coverall dark gray L (52)

Opis Produktu

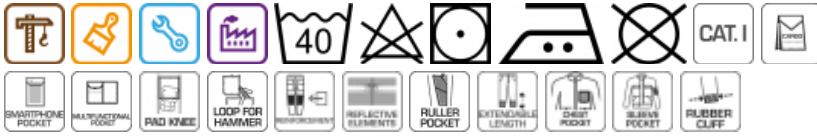

WURNITZ's flexible protective suit is made from the highest quality materials, combining durability with comfort. **The TWILL fabric**, consisting of polyester, cotton and elastane, provides not only durability but also freedom of movement, which is crucial in many working environments. Reinforcements made from **OXFORD 300D** material further enhance durability in key areas. The suit is ideal for production, construction, transport workers and car mechanics. It is also great for service, assembly and technical work.
