

PRODUCT INFORMATION SHEET

Impact bits 10 pcs mix 50 mm

Product description

A set of 10 bits designed for work, among others, with 1/4" impact wrenches and screwdrivers.

They are made of high-quality, hardened S2 alloy steel to cope with work with heavy loads.

The composition of metal from which the tools are made makes them more resistant to torsion when transmitting force to the screw, which means that they can work with higher torques.

The technology of heat and mechanical treatment of the working part makes the tools flexible enough to absorb the impact.

Magnetized tips make working with screws easier.

Practical packaging with an additional hook (carabiner) makes it easier to store and carry the bits.

Characteristics

- Size – TX40;
- Length – 50 mm;
- Material – S2;
- Drive - 1/4";
- Hardness - HRC 58~61;
- Magnetized tip;
- Number of bits in the set - 10 pcs;
- Set includes: 4xPZ2, 3xPH2, 2xTX20, 1xTX25;
- Handle with carabiner.
