

## PRODUCT INFORMATION SHEET

### Single Aluminum Suction Cup 130 kg

#### Product description

A efficient tool designed for transporting, moving and assembling objects with smooth surfaces such as glass, ceramic tiles, metal plates, or laminates with a maximum weight of 130 kg. The suction cup body is made of strong and durable aluminium. Thanks to this, the tool, despite its use in demanding conditions, will serve for many years. Moreover, its low weight and the ergonomic shape of the handle improve work comfort. The clever design of the suction cup allows one-handed use. The suction cup is made of durable rubber, which is both flexible and adhesive. It has a wide range of applications in industries such as tiling, glass workshops, tinsmiths, bodywork and painting workshops, carpentry, industry, etc.

#### Characteristics

- Maximum vertical load capacity - 130 kg.
- Number of suction cups on the tool - 2.
- Diameter of each suction cup - 108 mm.
- Material: aluminium + rubber.
