

PRODUCT INFORMATION SHEET

Knee pads with wheels

Product description

Knee pads make it possible to work comfortably and for a long time on knees, where there is a need for easy movement. The tool is ideal for work in; tiling and grouting, in the workshop, on a building site. They are made to reduce pressure on the knee evenly. The padding ensures a snug fit to the knee and protects against abrasion. The tool relieves pressure on the knees during work and provides adequate protection.

Characteristics

360° swivel castors; stable design thanks to three castors; protects knees from abrasion; makes work easier and quicker; can be removed from the wheeled platform.
