

PRODUCT INFORMATION SHEET

Gas burner

Product description

A robust gas blowtorch for all soldering and burning works. The flame control valve easily adjusts the flame size and the precision nozzle enables spot heating of any desired spot, even hard to reach. The blowtorch can be used seamlessly with MAPP, MAP/PRO and Propane gas. Components of the burner that come into contact with the gas are made of copper for comfort and safety of maintenance operations, minimising the risk of an accident.

Characteristics

Blowtorch power - 1,4 kW;
 Max. temperature - 1850° C;
 Gas type - MAPP;
 Mounting hole - 1"/20 UNEF / CGA 600;
 Piezo ignition - no.
