

PRODUCT INFORMATION SHEET

Stainless steel scraper 28x52 mm

Product description

The scraper is designed to be fitted to a multifunction tool (multitool), such as the HT2E230-0MT. It can be used for removal of old coatings, paints, silicones, dried adhesives, grouts, flexible materials, etc. The scraper material provides flexibility and resistance to damage. The narrow width and well-thought-out shape also allow for work in hard-to-reach areas. The universal attachment of the working tip fits most multitools on the market.

Characteristics

- intended for: removal of old coatings, paints, silicones, dried-up adhesives, grouts, elastic materials, etc;
- blade width - 28 mm;
- blade length - 52 mm;
- material - stainless steel.
